

# ENGAGE

With the Federal Laboratory Consortium

# ACCELERATE

Your Technology Development

## WHAT THE FLC CAN DO FOR YOU:

### FACILITATE

Connect with federal labs and their resources.

### PROMOTE

Amplify your T2 partnership's successes.

### EDUCATE

Improve your outcomes with resources.

## COMMERCIALIZING FEDERAL INNOVATIONS

The Federal Laboratory Consortium for Technology Transfer (FLC) is a nationwide network of more than 300 federal laboratories. The FLC offers strategies and opportunities to fast-track federal technologies from the lab to the marketplace through a collaborative process called technology transfer (T2).

Public-private partnerships are essential to bringing federal innovations to life through commercialization. These collaborations create industries, boost the economy, improve national security, and benefit society.

## IMPROVE OUTCOMES

The FLC offers resources to help you navigate federal T2.

**T2 Resources:** Learn about tech transfer terminology, policies, processes and more.

**Learning Center:** Discover new strategies for growth through virtual and in-person training.

**National Meeting:** Learn and network at the preeminent annual conference for federal T2.

## AMPLIFY T2 SUCCESS

The FLC amplifies your partnership's successes to the T2 community and beyond via print and digital publications, articles, podcasts, videos, social media, and more.

**Federallabs.org:** Promote your T2 news, find resources, and connect with others in the innovation ecosystem.

**Digest Newsletter:** Share your announcements, media coverage, events, jobs, and more in our biweekly newsletter.

**Labs in Action:** Broadcast your partnership's success stories through articles or videos.

**Transfer Files Podcast:** Share your insights and expertise in a one-on-one audio interview.

**Awards:** Gain national recognition for the results of your T2 partnerships.

**LabTech in Your Life:** Bring your commercialized technologies to life in our interactive virtual world.

## CONNECT WITH FEDERAL LABS

The FLC helps industry and nonfederal organizations find licensable technologies and federal resources, connect with potential collaborators, and navigate the federal T2 process.

**FLC Business:** Find federal facilities and licensable technologies in this searchable database.

**Industry and Tech Events:** Network within a specific tech or industry sector at these targeted events.

**Engagement Opportunities:** Gain commercial insights and discover potential partners at virtual and in-person events.

**Notice of Intent to License:** Be among the first to know about new collaborative opportunities.
