THE TRANSFER FILES

Inside the World of Federal Innovation

Tune in to the latest episode of The Transfer Files: Inside the World of Federal Innovation. Our guest Joe Allen, executive director of the Bayh-Dole Coalition, describes gives a firsthand account of how the Bayh-Dole Act came together, how it almost didn't get passed in Congress, and how it has shaped technology transfer and the national economy. Listen here, or stream it on Apple,

Spotify or your favorite podcast platform. [Listen here.](#)

FLC National Meeting in Pictures

It turns out everything really is bigger in Texas: The 2024 FLC National Meeting and 50th anniversary celebration drew a record-breaking 553 attendees! The Executive Board — and about a half-million others — enjoyed a front-row seat of the total solar eclipse. And everyone learned, connected and celebrated the FLC's impressive history and promising future. See highlights from the Awards Ceremony and 50th celebration in our [gallery of images](#).

FLC Photo of the Week

Photo of the Week: [Fieldable Atomic Beam Isotopic Analyzer \(FABIA\)](#)

The Fieldable Atomic Beam Isotopic Analyzer (FABIA) uses high-resolution absorption spectroscopy to reveal the isotopes in a solid sample quickly and accurately. The small size, lightweight, and simple infrastructure needs make it portable.

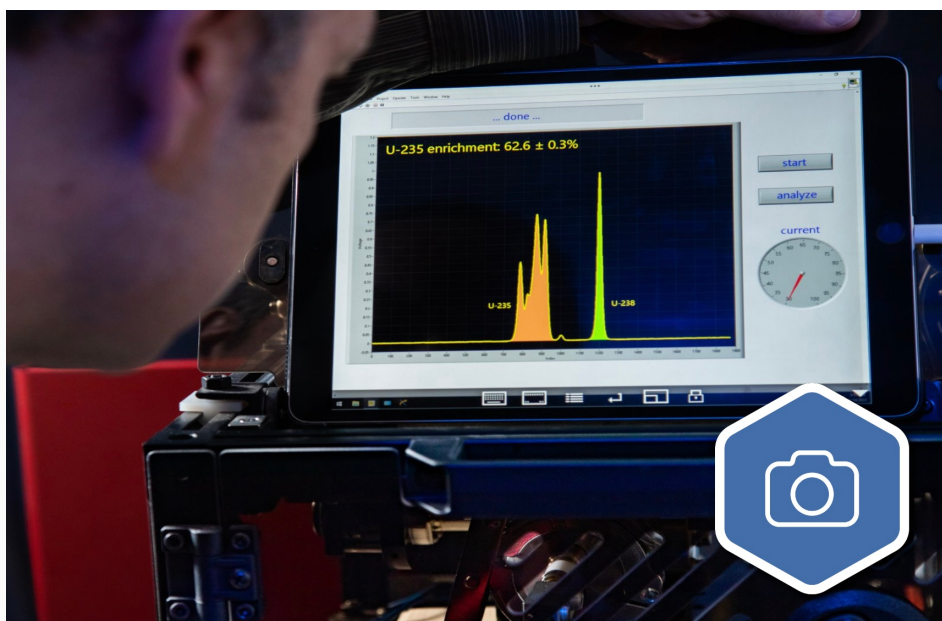

Photo credit: James Blake and Allen Hopkins, Los Alamos National Laboratory

The Photo of the Week visually showcases the exciting work federal labs do every day! [Read more about this week's featured lab and technology.](#)
