based Business

## WHAT CAN THE FLC DO FOR YOUR BUSINESS?

### PROMOTE

Publicize your  
T2 successes

### EDUCATE

Expand Pathways to  
your goals

### FACILITATE

Connect with federal  
labs

## COMMERCIALIZING FEDERAL INNOVATIONS

The Federal Laboratory Consortium (FLC), a nationwide network of more than 300 federal labs, facilities and research centers, provides strategies and opportunities for accelerating federal technologies out of the labs and into the marketplace through a collaborative process called technology transfer (T2).

Public-private partnerships play an essential role in the FLC's mission to increase the impact of federal T2 for the benefit of society, the economy and national security. That's why the FLC educates private-sector partners about new ways to achieve their business goals, facilitates T2 collaborations and promotes partners' contributions to federal T2 successes.

Contact us to learn more at:

## PUBLICIZE T2 SUCCESSES

The FLC helps increase the impact of public-private partnerships by raising awareness of federal R&D and the significant economic and societal benefits of moving federal innovations out of the lab and into the marketplace. Promotional channels include email, social media, printed publications and the FLC website.

**Labs in Action:** Share your federal T2 accomplishments with clients and customers

**LabTech in Your Life:** Make federal tech you've commercialized part of a virtual interactive tour

**Presentations:** Tout your successful T2 collaborations at virtual or in-person events

**Awards:** Earn recognition for your contributions to award-winning federal tech transfer efforts

## EXPAND PATHWAYS TO YOUR GOALS

The FLC has the knowledge and resources you need to identify new ways of accelerating the growth of your business. You'll learn how federal tech transfer partnerships help companies realized their financial goals while also advancing science and helping government agencies achieve difficult missions.

**FLC Learning Center:** Discover new strategies for growing your business through virtual and in-person training

**FLC National Meeting:** Gain insight into commercial opportunities related to government challenges

**T2 Resources:** Learn about tech transfer terminology, policies, mechanisms and more

**FLC Highlights:** Learn how companies like yours are advancing science through public-private partnerships

**FLC Business:** Search for federal technologies and testing facilities that will lead to next-level success

## CONNECT WITH FEDERAL LABS

The FLC's engagement opportunities support T2 partnerships in multiple ways. We help the private sector navigate FLC's network of member labs to identify the best match for a collaborative venture, and we showcase federal lab technologies, facilities, and expertise so that the private sector can learn more about the value of working with federal labs.

**FLC Business:** Search for federal technologies and testing facilities that will lead to next-level success

**Industry and Tech Events:** Attend and/or speak at these FLC-hosted meetings focused on a specific tech or industry sector

**Engagement Opportunities:** Labs showcase what your lab has to offer a private sector partner

**Notice of Intent to License:** Be among the first to know about new collaborative opportunities
