

Credit Given Where Credit is Due: Making sure you get the professional recognition you deserve for your work

- Being proactive in recognizing and documenting your emerging technological innovations and inventions; using the NIST Invention Disclosure Form
- Acting as an organizational champion and “Intrapreneur” for your achievements
- Identifying and promoting opportunities for collaborative research and commercial development with outside partners
- Working with the NIST Technology Partnerships Office (TPO) and NIST Patent Attorneys
- Bring your questions, concerns, and suggestions
- Interact with a distinguished panel

Thursday, March 28, 2019
