Installation of YouVisit
Directly on Your Website

2

Installation on Your Website

✓ This document details the process for including the [YouVisit script](#) and embed code directly into your website to launch your YouVisit experience via Immersive Banner, Hyperlink, and/or as a Single Destination.

Immersive Banner (360° launch icon)

The immersive banner has the highest click through and conversion. When compared to a hyperlink, the banner will get 400% more clicks.

1. Place this code on your respective pages to install the experience

   Change the percentages to alter the size of the banner.

   ```
   https://www.youvisit.com/#/vte/?data-platform=v&data-link
   -type=immersive&data-inst=119761&data-image-width=100%&da
   ta-image-height=100%&
   ```

2. Place the script above the </body> tag on each page you place the code

   The script must go below the link.

   ```
   <script async="async" defer="defer"
   src="https://www.youvisit.com/tour/Embed/js2"></script>
   ```

Installation on Your Website

✓ This document details the process for including the YouVisit script and embed code directly into your website to launch your YouVisit experience via Immersive Banner, Hyperlink, and/or as a Single Destination.

Hyperlink

1. **Place this code on your respective pages to install the simple link text**

```
https://www.youvisit.com/#/vte/?data-platform=v&data-inst=119761&data-image-width=100%&data-image-height=100%&
```

2. **Place the script above the </body> tag on each page you place the code**

   The script must go below the link.

   ```
   <script async="async" defer="defer" src="https://www.youvisit.com/tour/Embed/js2"></script>
   ```
