Notice of Intent to Grant Exclusive License

AGENCY: U.S. Geological Survey, DOI

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of the Interior, U.S. Geological Survey (USGS), intends to grant Invasive Species Control Corp. (ISCC) of Delaware, an exclusive license to an invention including rights to a developed strain and method of producing and using the strain to produce high concentration Antimycin A to control invasive species in water.

DATES: Comments must be received on or before June 29, 2022.

ADDRESS: Send comments to: James Mitchell, Patent and Licensing Mgr., Office of Policy and Analysis, (703) 268-8717, jmmitchell@usgs.gov. Information about other USGS inventions can be found at [USGS Active Patents | U.S. Geological Survey](#).

SUPPLEMENTARY INFORMATION:

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. USGS will review all timely written responses to this notice. The license will be granted unless, within fifteen (15) days from the date of this published Notice, USGS receives written comments and evidence that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7 and (or) in the public interest.
